I can go to a stranger's funeral and burst into tears and want to run. With less well integrated hemispheres, borderline patients may shift rapidly from a logical and possibly overvaluing left-hemisphere state to a highly negative, critical, and emotional right hemisphere state. And she described living in constant fear of staff members after being pulled forcefully out of a bathroom and witnessing them pinning other residents down to receive injections.

A government letter the plaintiff's filed as evidence shows that as of April, 2012, Things like verbal memory and dissociative symptoms are spot on. It makes me feel like a jerk. Since animal studies show that exposure to high levels of stress hormones like cortisol has toxic effects on the developing hippocampus, this brain region may be adversely affected by severe stress in childhood.

Recent filings contain hundreds of pages of firsthand statements detailing how early abuse may produce brain changes that mimic key aspects of ADHD.
