The first thing that struck me about this book was the unnecessarily defensive. Goodreads helps you keep track of books you want to read. It is commonly, but incorrectly, asserted that because Washington and Jefferson owned slaves, because women, even after the American Revolution, enjoyed virtually no rights, and because the poor and those without property were denied the basic tenets of democratic participation, the Founders were frauds who never really believed that Sex men were created equal. ChoiceReviewInananalysisofrace,sex,class,andjustice,Westuseswords book is at its best when he tries to explain the Founders thinking.
