No subjects were excluded from the final analyses. Avoid judging ideas as either bad or good in the divergent-thinking phase. Are students not reading your course syllabus? Creativity Research Journal 2. This issue is important because as far we know, only one previous study has provided evidence regarding the relation between episodic retrieval and divergent thinking in older adults. Recent research has suggested that an episodic specificity induction- brief training in recollecting the details of a past experience- enhances divergent creative thinking on the Alternate Uses Task AUT in young adults without affecting performance on tasks thought to involve little divergent thinking, but the generalizability of these results to other populations and tasks is Divergent Thinking (Creativity Research). Participant spent approximately 6 minutes in each induction. Deconstruct episodic memory with construction.
