Because of the structure, I knew the book would have an uneven tone, and tried to mitigate that fact for myself by reading it in chunks, as originally published. This is a terrific read for Star Trek fans, especially since it fills in the gaps during the entire year history of the original crew. My favourite ones have to be the ones that take place during those gaps in between films.

Originally published as a series of e-books, this omnibus edition is a collection of the first three books in the series. The Enterprise is assigned to deploy a series of satellites that will create a shield for the planet and avert all of this damage. To create a series or add a work to it, go to a "work" page.
