The API is a Master & Slave stickier, but they can of course just map the old 'slave' designation to a new. In pneumatic and hydraulic systems, we also have master cylinders, which feed the pressure and control the slave cylinders. Our goodness and values show in our worldly actions.

You can't be "subconsciously racist", don't believe those hoax psychologists. What is the difference between little endian and big endian data formats? We could mark deleted rows with a "david star" tag and then run the "holocaust" process on the tables to remove them from storage.

Follower implies lack of autonomy, blind devotion as in a cult, a follower of a jumper on each drive is set to the CS option. Because giving in to thought-policing bullies is always a bad idea.
