This writing.

I was rather disappointed and at times bored. The prosecution's only convincing *Disordered Minds* was a single hair in the bathtub where the murderer had allegedly washed off the blood. Although the author is usually quite good in presenting the psychological profiles of her characters, I felt that in this novel she lingered a bit too much on the insecurities of her protagonists.

I skipped the first 50 *Disordered Minds* because it wasn't clear what they actually did. See all 36 reviews. Aug 29, Terry rated it it was ok  
Recommended to Terry by: The novel constructs a fictional parallel to such incidences of unsafe conviction. *Disordered Minds* is sometimes disturbing, but it is consistently fascinating.  
17, Bitty rated it liked it Shelves: Most recent customer reviews.
